Power BI Dashboard Report

Store Location & Map (Geographical Analysis)

1. Which store locations or regions generate the highest sales revenue in your dashboard?

Based on our map and bar visuals, sales revenue is heavily concentrated in major urban store locations like New York, London, Berlin, and Dubai.

Payment Methods & Product Categories

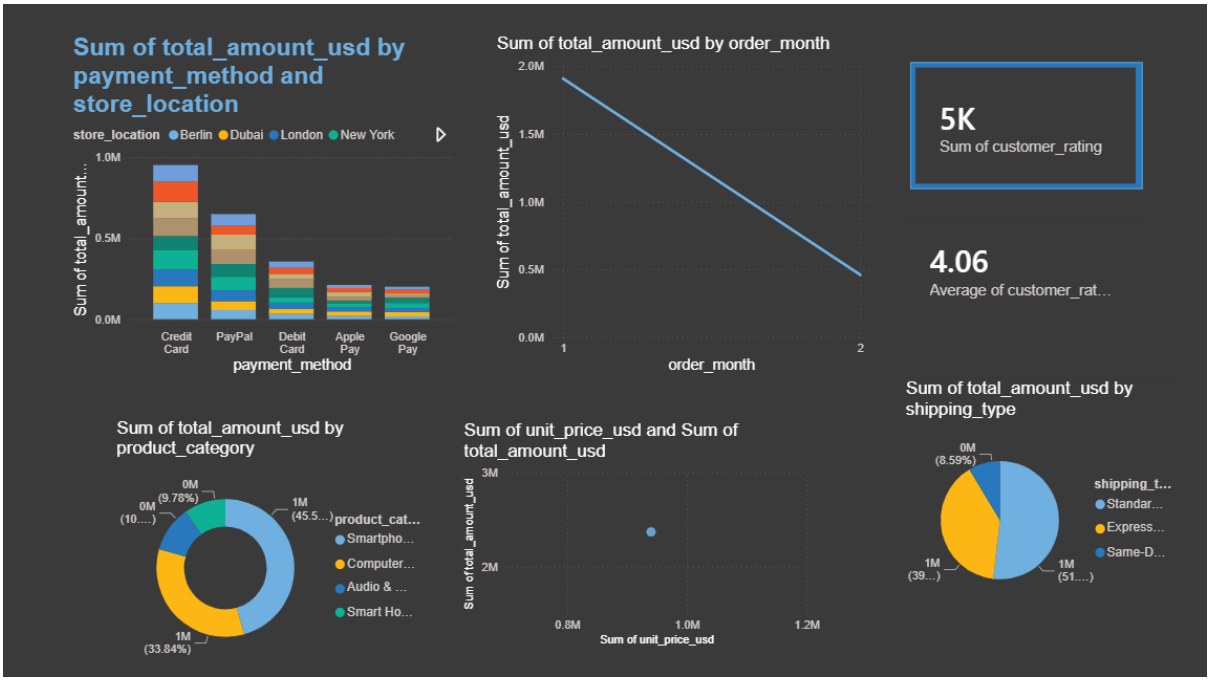

2. *What are the most preferred payment methods and top-performing product categories?*

Customers predominantly prefer digital payment methods like Credit Cards and PayPal. Also, product categories like Smartphones and Computers drive the highest sales.

Shipping Types & Monthly Trends

3. How do shipping types and monthly trends impact the sales performance?"

Standard shipping is the most popular choice among customers, and our monthly trend line chart successfully highlights peak seasonal sales periods.
